INNEHÅLL.

Sid.

BONNIER, GERT and NORDENSKIÖLD, MAJA, Studies in *Drosophila melanogaster* with Attached X:s. II. Frequency of Homozygosis 477

BONNIER, GERT and TRULSSON, SALLY, Selective Fertilization in Poultry 65

ERLANDSSON, STELLAN, The Chromosome Numbers of Three *Artemisia* Forms 27

GENTCHEFF, G. and GUSTAFSSON, Å., The Double Chromosome Reproduction in *Spinacia* and Its Causes. I. Normal Behaviour 349

— and —, The Double Chromosome Reproduction in *Spinacia* and Its Causes. II. An X-Ray Experiment..... 371

GUSTAFSSON, ÅKE, A General Theory for the Interrelation of Meiosis and Mitosis 31

—, Differential Polyploidy within the Blackberries..... 33

—, The Interrelation of Meiosis and Mitosis. I. The Mechanism of Agamospermy 289

HAGERUP, O., Studies on the Significance of Polyploidy. III. *Deschampsia* and *Aira* 185

HEILBORN, OTTO, On the Structure of Pachytene Chromosomes in *Lilium* 103

—, Chromosome Studies in Cyperaceæ. III—IV 224

KRISHNASWAMY, N., Cytological Studies in a Haploid Plant of *Triticum vulgare* 77

LAMPRECHT, HERBERT, Zur Genetik von *Phaseolus vulgaris*. XIV. Über die Wirkung der Gene *P, C, J, Ins, Can, G, B, V, Vir, Och* und *Flav*. (With a Summary in English.) 255

—, Translokation, Genspaltung und Mutation bei *Pisum*. (With a Summary in English.) 431

—, Genstudien an *Pisum sativum*. IV. Über Vererbung von Wachslosigkeit und ein neues Gen für lokale Ausbildung von Wachs, *Wsp.* (With a Summary in English.)..... 459

LAMPRECHT, H. und ÅKERBERG, E., Über neue Gene für die Ausbildung von Testafarbe bei *Pisum*. (With a Summary in English.)..... 323

LEVAN, ALBERT, The Effect of Colchicine on Meiosis in *Allium* 9
—, Cytological Phenomena Connected with the Root Swelling Caused by Growth Substances 87
—, Tetraploidy and Octoploidy Induced by Colchicine in Diploid *Petunia* 109
—, Studien über die Vererbung der Blütenscheckung bei *Petunia*. (With a Summary in English.) 145
MOHR, OTTO L., Dominant Acrocephalosyndactyly 193
MÜNTZING, ARNE, Studies on the Properties and the Ways of Production of Rye-Wheat Amphidiploids 387
MÜNTZING, A. and RUNQUIST, E., Note on Some Colchicine-Induced Polyploids 491
NILSSON, ERNST, Erblichkeitsversuche mit *Pisum*. X. Die Koppelungsgruppen *Pa-R-Tl-Btb* und *Wlo-P-Pl* 48
NILSSON, HERIBERT, Eine diploide Form aus der tetraploiden *Oenothera gigantea* 1
NILSSON, MARTIN P., Über Genetik und Geschichte 211
NORDENSKIÖLD, HEDDA, Studies of a Haploid Rye Plant 204
OKSALA, TARVO, Über Tetraploidie der Binde- und Fettgewebe bei den Odonaten. Ein Beitrag zur Kenntnis der sog. somatischen Polyploidie der Insekten 132
RASMUSSON, J. and LEVAN, ALBERT, Tetraploid Sugar Beets from Colchicine Treatments 97
SVÄRDSON, G. and WICKBOM, T., Notes on the Chromosomes of Some Teleosts. *Esox lucius* L., *Lucioperca lucioperca* L. and *Perca fluviatilis* L. 472
TOMETORP, GÖSTA, Cytological Studies on Haploid *Hordeum distichum* ... 241
ÅKERBERG, ERIK, Apomictic and Sexual Seed Formation in *Poa pratensis* 359
